

W02-P1: Add w01 files

W02-P2: Add two more books, marked books based on your ID's last digit

The image shows a web browser on the left and a VS Code editor on the right. The browser displays a list of three books: 'The Umbrella Man and Other Stories' by Roald Dahl, 'Verity' by Colleen Hoover, and 'Help Is Here' by Max Lucado. The 'Verity' book card is highlighted with a red border. The VS Code editor shows the code for the book list, with the 'secondBook' and 'threeBook' objects highlighted by red boxes. The code defines these books with their respective image URLs, titles, and authors. The terminal at the bottom shows the command to run the application.

```
const firstBook = {
